- Project:** Kirklees County Council
Description: OCS Consultant delivering an OCS 2007 pilot project. Providing technical skills to install configure and demo OCS2007 technology as part of a pilot project for the council to evaluate OCS technology. Online presence, messaging, video conference, telephony and archiving technologies were deployed.
- Project:** 5i
Description: Consultant delivering an OCS 2007 pilot project providing technical skills to plan, design, installs, configure and demo the pilot deployment. The project is notable because it involved integration OCS 2007 and Cisco Call Manager for voice and call-control functionality.
- Project:** London Stock Exchange / Microsoft
Description: OCS2007 Consultant, providing OCS2007 Consultancy on behalf of Microsoft Consulting Services, to install and configure OCS2007 Standard Edition for pilot project. Online presence, messaging, conference, archiving and Quality of Experience technologies deployed.
- Project:** HBOS / Microsoft
Description: OCS2007 Consultant providing OCS2007 Consultancy on behalf of Microsoft Consulting Services and presented OCS2007 requirements to senior HBOS Management Team for the purpose of project planning
- Project:** Nortel
Description: Trainer delivering workshop material to Nortel system engineers on LCS2005 and OCS2007 Beta deployments and upgrades
Customer: Modality Systems
- From – To:** December 2004 – July 2007
Description: He was a Rapid Response Engineer in the EMEA region for SharePoint Technology. This is a highly specialised technical engineering role designed to resolve critical customer situations, perform environmental health checks, conduct supportability reviews and deliver customer workshops. During this time he became certified by Premier Field Engineering (PFE) to deliver SharePoint health checks globally and went on to attain a mentoring role for the EMEA region.
- Project:** Microsoft
Description: Joined Microsoft UK as the first fully dedicated SharePoint Engineer within the Microsoft Services Organisation, (MSO). This role involved engaging high profile Premier customers to proactively work support issues encompassing a wide variety of Microsoft technologies. He became the Lead Premier Field Engineer for SharePoint and chaired the SharePoint Technology Focus Group demonstrating the value of SharePoint technologies to other groups within the Microsoft Campus.
- Project:** Microsoft / Ministry of Defence / Fujitsu
Description: He worked as an Architect Solutions Engineer (ASE) for the Microsoft executive account team for the UK's Ministry of Defence. His primary focus was to provide SharePoint Portal Server 2003 consultancy for the 350k seat deployment.
Customer: Microsoft UK
- From – To:** November 1997 – December 2004
Description: Employed by Trinity Expert Systems plc (Microsoft Gold Partner), as a Consultant within the Collaboration and Knowledge Management Group. His role was to design and implement Microsoft SharePoint technologies and engage clients, both at a technical and business
